

## **KOUTEKITE**

A very rare mineral found in a few arsenical copper deposits. Northern Peninsula.

**Keweenaw County:** Mohawk mine: Found intimately intergrown with paxite (q.v.) in ankerite. Identification is based on electron microprobe data (S. A. Williams, written communication, 1986).

**FROM:** Robinson, G.W., 2004 **Mineralogy of Michigan** by E.W. Heinrich updated and revised: published by A.E. Seaman Mineral Museum, Houghton, MI, 252p.
